

Solomon Yue

Solomon Yue, Jr., a founder of Republicans Overseas Inc., is Vice Chairman and Chief Executive Officer.

Mr. Yue, a legal immigrant born in Communist China, survived the Cultural Revolution and escaped tyranny by moving to America as a private international student speaking only two English phrases: “Thank you” and “Coca Cola”. He worked two jobs to pay for his Management Sciences BA and International Trade MBA and earned his U.S. citizenship under the Third Preference category for highly skilled professionals as an International Trade Economist. Mr. Yue then started a successful importing and wholesaling medical glove business. He has served on the Republican National Committee since 2000. Mr. Yue has a seniority ranking of 14 among the 168 RNC members.

In 2008, Mr. Yue co-founded the RNC’s 24-member Republican National Conservative Caucus, a brain trust of the national conservative movement dedicated to returning America to its founding roots. At the same time, he co-founded the 89-member Republican Conservative Steering Committee, a member driven political forum for public policy debates.

Since 2011, Mr. Yue has served as Vice Chairman for three PACs: the USA Super PAC, the Republican Super PAC, and the Grassroots Conservative Coalition. As President of Grassfire Strategic Planning and Management Group L.L.C., Mr. Yue has managed political campaign projects throughout America.

As a senior RNC leader, Mr. Yue has served as a member of the RNC Executive Committee, Deputy Permanent Co-Chairman of the Republican National Convention for 2012, member of the 2012 Republican National Convention Committee on Credentials, and Special Envoy of the RNC Chairman to the Republicans Abroad Worldwide.

He currently is a member of the RNC Standing Committee on Rules and successfully defended President Trump's nomination at the Republican National Convention for 2016. Mr. Yue proposed using Robert's Rules of Order instead of House Rules to govern the Convention. He also proposed that RNC Rules changes not be effective until the conclusion of the Convention. Although neither proposal was adopted, Mr. Yue's efforts thwarted the plans of the "never Trumpers" and "vote your conscience" movements to steal the nomination.
